Professional Summary

Python Backend Developer with hands-on experience building RESTful APIs and backend applications using FastAPI, MongoDB, Pydantic, and JWT Authentication. Experienced in developing AI-powered applications using Google Gemini API, API integration, and conversational systems. Currently developing AI assistant and voice assistant applications with a focus on backend development, API design, authentication, and practical software engineering.

Technical Skills

Languages: Python, JavaScript, HTML5, CSS3

Backend: FastAPI, REST API Development, JWT Authentication, Pydantic, Uvicorn

Database: MongoDB, SQL

Frontend: HTML, CSS, Vanilla JavaScript, Responsive UI

AI & GenAI: Google Gemini API, Tavily API, Prompt Engineering, LLM Concepts, RAG Fundamentals

Tools: Git, GitHub, VS Code, Swagger, Postman

Concepts: REST APIs, CRUD, API Design, Authentication, Object-Oriented Programming, JSON, Error Handling

Projects

Alpha – AI Assistant

Python, FastAPI, Gemini API, Tavily API

- Developed an AI-powered assistant using Python and FastAPI with Google Gemini API integration.
- Implemented backend API endpoints for handling user prompts and generating AI responses.
- Added conversational memory to maintain context across interactions.
- Integrated Tavily API for real-time web search and information retrieval.
- Built a responsive web interface using HTML, CSS, and JavaScript.

Jully – AI Voice Assistant

Python, FastAPI, Speech Recognition, TTS

- Built a Python-based AI voice assistant that converts spoken commands into actionable requests and responses.
- Implemented speech recognition and text-to-speech for two-way voice interaction.
- Developed a command handler to identify user intents and route requests to appropriate services.
- Integrated weather, news, and reminder functionality for real-time user requests.
- Built the backend using FastAPI and connected it with a browser-based HTML, CSS, and JavaScript interface.

Data Analyzer – Data Analysis Application

Python, Pandas, Streamlit

- Planned data analysis application for uploading and analyzing CSV datasets.
- Planned implementation of data cleaning, statistical analysis, visualizations, charts, and heatmaps.
- Intended to provide an interactive Streamlit dashboard for presenting dataset insights.

Experience

Software Development Intern

2026 – Present

QSkill

- Worked on practical Python development tasks involving backend development and application building.
- Developed and improved projects using Python, FastAPI, API integration, and related development tools.
- Practiced software development workflows including debugging, testing, documentation, and version control.

Education

Bachelor of Computer Applications (BCA)

2023 – 2026

Guru Nanak Dev Engineering College, Ludhiana

Affiliated to I.K. Gujral Punjab Technical University, Punjab

CGPA: 7.32 / 10

Certifications

- Infosys Springboard – Programming Fundamentals Using Python (Part 1)
- Infosys Springboard – Programming Fundamentals Using Python (Part 2)
